**NOTES:**

1 Because of a change in how HR records are maintained for part-time adjunct (non-benefited) faculty, reliable age data for FY2002 and FY2003 are not available.

**Note:** Include all full-time and part-time teaching faculty with unmodified titles currently on campus, including academic administrators with faculty titles. Do not include unpaid or token-paid faculty or non-teaching faculty with modified titles (e.g. research professor). Include teaching visiting faculty.

Explanation of teaching load (if not measured in credit hours):

**Teaching load is measured in credit hours; however, data have been provided for full Fiscal Years in addition to the requested Fall Term load figures. There are no Full-Time data—all numbers, regardless of column, reflect Part-Time faculty. The Fiscal Year data are more reflective of the particular part-time nature of 100% of GSC's faculty. Because most faculty do not teach courses in every term, Fall does not capture a representative share of teaching activity. Additional NOTE: Fiscal Year mean course loads have been provided in addition to the medians, in order to provide perspective for FY 2006 results, where the median drops from 8 (during each of the four prior Fiscal Years) to 4.**

**NOTES:**

1 Because GSC faculty are adjunct and hired on a course-by-course basis, it is not unusual for individual instructors to skip a year (occasionally up to two years) between teaching assignments. Therefore, final data on departing faculty are not available for FY 2005 and FY 2006.

**NOTES:**

- Most GSC faculty remain "active" even if they do not teach during a period of up to two consecutive Fiscal Years. Therefore, these academic unit faculty counts are higher than the actual number of teaching faculty (Form 7, page 1) because they show **active** adjunct instructors, whether or not they have taught during a particular Fiscal Year.
