

Granite State College

August 8, 2022

Steve Appleby, Director
Division of Educator Support and Higher Education
NH Department of Education
101 Pleasant St., Concord, NH 03301

Dear Director Appleby:

As required by RSA 188-H:4, in March 2022, Granite State College conducted a sexual misconduct climate survey of all current students. The RSA also requires that *“each institution shall submit a summary of the results to the director and shall also post a summary of the results on the institution's website in an easily accessible manner.”*

The response rate to this survey, however, was too low (0.4%) to yield actionable data and/or to protect student privacy. The College requests that this letter serve as a summary of the results.

- Name of the institution – **Granite State College**
- Institutional contact/ Principal investigator – **Tiffany Doherty**
- FTE of the institution – 1,344 per IPEDS 12-Month Enrollment 2021-2022
- Dates the survey was administered – **March 16, 2022 – March 31, 2022** to students enrolled in Winter 2022 term (n = 1918)
- Survey response rate - **0.4% response rate** (8/1918)
- Survey completion rate - **3.7% completion rate** (8/215)
- Aggregate data for each question in the appendix – **Not applicable**

Please feel free to contact me if you have any questions.

Sincerely,

Todd Slover
